Introduction	Awareness of campaign	all maize farmers	Nyanda zote	11/06/17	Ndugu Mkulima,kituo cha utafiti Uyole wakishirikiana na CABI, FRI na Esoko watakuletea jumbe fupi kuhusu kilimo cha mahindi. Kupokea jumbe ni bure. Kaa tayari	158
Introduction	Awareness of campaign	all maize farmers	Nyanda zote	11/06/17	Kampeni ya kilimo cha mahindi kwa jumbe fupi za simu na vipindi vya redio pia imeshirikisha makampuni ya mbegu ya HIGHLAND SEED, BEULA SEED na MERU AGRO SEED	158
Introduction	dynamic information	all maize farmers	Nyanda zote	11/08/17	Ili kupunguza gharama za uzalishaji.Serikali imetoa bei elekezi kwa mbolea ya DAP na UREA.Muone mtaalamu wa kilimo/kiongozi wa eneo lako ili kujua bei elekezi	159
Introduction	Awareness of campaign	all maize farmers	Nyanda zote	11/07/17	Mahindi-Mbegu zilizoboresha zinazaa vizuri, hukomaa kwa muda mfupi, zinahitamilii ukame, wadudu, magonjwa na changamoto za mabadiliko ya hali ya hewa	150
Pre-planting	climate smart Agric seed selection	all maize farmers	Nyanda zote	11/09/17	Chagua mbegu bora za mahindi kulingana na ukanda wako. Tumia mbegu kama UH615, UH6303, MERU HB623, MERU IR 621, composite TMV-2 kwa ukanda wa juu	145
Pre-planting	climate smart Agric seed selection	all maize farmers	Nyanda zote	11/09/17	Mahindi- Ukanda wa chini, tumia mbegu bora UHS401, TMV-1, Staha-ST, MERU HB513 MERU HB 515, Kilima-ST, Kito, Situka M1. Kifungashio kiwe na Lebo ya TOSCI	153
Introduction	Awareness of campaign	all maize farmers	Nyanda zote	11/11/17	Kununua mbegu hizi mbona za mahindi wasiliana na BEULA seed(0754765028/0675743826), HIGHLAND Seed (0754465806/0789465806) na MERU AGRO(0753993481/0759097434).	159
Pre-planting	climate smart Agric seed selection	all maize farmers	Nyanda zote	11/11/17	Mbegu za mahindi zilizo thibitishwa ubora zina chapa/nembo ya TOSCI. Hakikisha unanunua mbegu kutoka kwa wakala aliyesajiliwa mwenye kibali cha kuua mbegu	155
Pre-planting	climate smart Agric seed selection	all maize farmers	Nyanda zote	11/11/17	Mahindi-Endapo utabiri wa hali ya hewa utaonyesha mvua zitakua chache, panda mbegu zinazovumilia ukame na kukomaa kwa muda mfupi mfano HB513, HB515, UHS401	155
Pre-planting	seed availability	all maize farmers	Nyanda zote	13/11/2017	kumbuka kuwasiliana na MERU AGRO(0753993481), BEULA seed(0754765028), HIGHLAND seed(0754465806) kujua faida zote za mbegu bora na wapi ununue kwenye eneo lako	158
Pre-planting	climate smart Agricseed selection	all maize farmers	Nyanda zote	14/11/2017	Mahindi-Shamba lenye gugu chawi,lima kitaalam-panda mbegu stahilimivu-UH6303,Meru IR621,tumia mbolea za nitrojeni,kilimo mzunguko,ng'oa choma kabla halijachana	160
Pre-planting	climate smart Agricseed selection	all maize farmers	Nyanda zote	14/11/2017	Kwa maeneo ya ugonjwa wa milia unaweza tumia mbegu kama TMV1,UHS401 ukanda wa chini, UH6303 ukanda wa kati hadi wa juu na kufuata kanuni bora za kilimo	152
Pre-planting	seed rate	all maize farmers	Nyanda zote	17/11/17	Mahindi Unahitanji kilo 8-10 kwa ekari.Panda mbegu zilizothibitishwa na Taasisi ya kudhibiti ubora wa mbegu(TOSCI),Usipande punje zilizopasuka au kutobolewa	156
Pre-planting	climate smart Agricseed selection	all maize farmers	Nyanda zote	17/11/17	Shamba likiwa kwenye mteremko, liama kwa kukinga mteremko ili kuzuia mmomonyoko wa ardhi, kuhifadhi mbolea asili iiyoko shambani na kudumisha rutuba ya udongo	158
planting	spacing	all maize farmers	Nyanda zote	17/11/17	Panda mbegu bora za mahindi kwa nafasi ya sm75 mstari hadi mstari na sm25 shimo hadi shimo kama unaweka punje moja au sm75 kwa sm50 kama ni punje 2 kwa shimo.	158
planting	climate smart Agricseed selection	all maize farmers	Nyanda zote	17/11/2017	Kwa maeneo ya ugonjwa wa milia unaweza kutumia mbegu kama TMV1,UHS401 ukanda wa chini, UH6303 ukanda wa kati hadi wa juu na kufuata kanuni bora za kilimo	154
planting	input availability	all maize farmers	Nyanda zote	18/11/17	Unashauriwa kuandaa viuatilifu vya kudhibiti magugu, magonjwa na wadudu mapema, MERU AGRO(0769467031)na syngenta ni baadhi ya makampuni yanayo uza viuatilifu	158
planting	fertilizer information	all maize farmers	Nyanda zote	20/11/17	Tumia mbolea za kupandia (DAP,NPK,TSP+CAN) kg 50-100 kwa ekari na weka kizibo 1 cha soda kila shimo, zingatia ushauri wa wataalam na majibu ya upimaji wa udongo	160
planting	fertilizer information	all maize farmers	Nyanda zote	20/11/17	Namna ya kuweka mbolea.Chimba shimo sm 10, weka mbolea, rudishia udongo kidogo ili mbegu isiunguzwe na mbolea, weka mbegu bora ya mahindi na ufukie	147
planting	fertilizer information	all maize farmers	Nyanda zote	20/11/17	Ukitumia TSP+CAN, changanya kwa uwiano wa mfuko mmoja wa TSP na mfuko mmoja wa CAN.Tumia mchanganyiko huo siku hiyo.Wasiliana na mtaalam wa kilimo kwa ushauri	158
planting	fertilizer information	all maize farmers	Nyanda zote	21/11/17	Tumia mbinu kama kuchanganya mbolea za viwadani za asili kupandia mf tani 10 samadi iliyoza vizuri-nusu kilo mashimo 4.Ongeza DAP/NPK, kizibo cha soda/shimo	160
growing	fertilizer information	all maize farmers	Nyanda zote	21/11/17	TAHADHARI-kunauwezekano wa kusumbuliwa na Funza weupe ukitumia samadi haijaoza vizuri. Hakikisha samadi imeoza vizuri.Muone mtaalam wa kilimo kwa ushauri zaidi	159
growing	weeding technooigies	all maize farmers	Nyanda zote	21/11/17	Kilimo Hifadhi: Unaweza pia kutumia viugugu endapo shamba la lako lina magugu kama sangari/kwekwe,ndago.Muone mtaalam wa kilimo kwa ushauri zaidi	147
Pre-planting	weeding technooigies	all maize farmers	Nyanda zote	21/11/17	Tumia viugugu kama roundup,agrosate,gugugsate,agroround kuua sangari au kwekwe,piga angalau wiki 1 kabla ya kupanda Soma kifungashio kwa maelezo zaidi	152
Pre-planting	record keeping	all maize farmers	Nyanda zote	21/11/17	Unashauriwa kuweka kumbukumbu za gharama za uzalishaji yaani tangu kuandaa shamba hadi kuua mazao. Hii itakusaidia kujua faida au hasara katika kilimo chako.	158
growing	dynamic, promotion of the service	maize-New profiles only	The new villages profiled recently	20/12/17	Kituo cha utafiti Uyole CABI, FRI, Esoko na makampuni ya mbegu watakuletea jumbe fupi na vipindi vya radio kuhusu kilimo cha mahindi. Kupokea jumbe ni bure.	156
growing	dynamic, promotion of radio programs	maize-New profiles only	The new villages profiled recently	20/12/17	Sikiliza kipindi cha kilimo BARAKA FM kila Ijumaa saa 1:30 usiku hadi saa 2:00 usiku, na kitakaporudiwa Jumapili saa 3:00 usiku hadi saa 3:30 Usiku	147
pre-planting	repeat-seed availability	maize-New profiles only	The new villages profiled recently	20/12/17	Kununua mbegu hizi bora za mahindi wasiliana na MERU AGRO(0753993481/0759097434, BEULA seed(0754765028/0675743826) na HIGHLAND Seed (0754465806/0789465806)	157

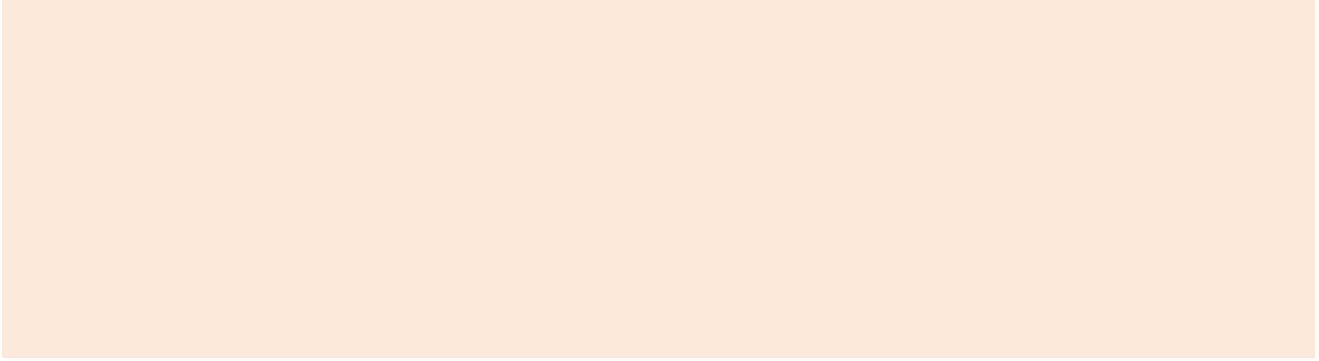

pre-planting	dynamic repeat message	maize-New profiles only	The new villages profiled recently	23/12/17	Serikali imepunguza gharama za uzalishaji kwa kutoa bei elekezi kwa mbolea ya DAP na UREA. Muone mtaalamu wa kilimo/kiongozi wa eneo lako ili kujua bei elekezi	159
pre-planting	climate smart-seed selection	maize-New profiles only	The new villages profiled recently	23/12/17	Chagua mbegu bora za mahindi kulingana na ukanda wako. Wasiliana na MERU Agro na BEULA seed ujulishwe aina za mbegu zinazofaa kwenye ukanda wako.	145
pre-planting	climate smart-seed selection	maize-New profiles only	The new villages profiled recently	23/12/17	Mahindi-Utabiri Ukionyesha mvua zitakua nyingi, mbegu za muda mrefu-mifano HB623,UH615, UH6303,H614 D. Mvua zikiwa chache mbegu za muda mfupi HB513 HB515,UHS401	160
growing	seed promotion-repeat message	all maize farmers	all FARMERS	28/12/18	Kununua mbegu hizi bora za mahindi wasiliana na MERU AGRO(0753993481/0759097434, BEULA seed(0754765028/0675743826) na HIGHLAND Seed (0754465806/0789465806)	157
growing	weeding	all maize farmers	all FARMERS	28/12/18	Fanya palizi ya kwanza kati ya wiki ya 2 hadi 3 baada ya mahindi kuota, na ya pili ifanyike wiki ya 2 mpaka 4 kutoka palizi ya kwanza kufanyika	143
growing	top dressing	all maize farmers	all FARMERS	29/12/18	Tumia mbolea za kukuzia (Urea,SA,CAN) kilo 50-100 kwa mara ya kwanza wiki ya 2-3 tangu mahindi kuota, zingatia ushauri wa wataalam na majibu upimaji wa udongo.	159
growing	climate smart-fertilizer use	all maize farmers	all FARMERS	29/12/18	Endapo ardhi ni kavu au kuna dalili ya mvua kunyesha usiweke mbolea ya kukuzia mahindi ili mbolea isipotee na mvua au jua	121
growing	pest and diseases	all	all FARMERS	05/01/18	Kuwa mwangalifu, mahindi yakishaota hushambuliwa na magonjwa kama milia, ukungu, kutu, baka jani na mnyauko wa mahindi, wadudu kama bungua shina na funza.	
growing	pest and diseases-scouting	all	all FARMERS	08/01/18	Kagua shamba lako la mahindi kila wakati. Endapo kuna magonjwa mapya/wadudu waharibifu au wa mlipuko kama viwavijeshi wasiliana na mtaalamu wa kilimo kwa ushauri	160
growing	pest and diseases-identification	all	all FARMERS	09/01/18	Viwavi jeshi hufanya madhara makubwa. Wadudu hawa huonekana kama viwavi wengi wa rangi ya kijani wakila pamoja. Unapowaona piga ripoti kwa ofisa wa serikali.	
growing	pest and diseases	all	all FARMERS	10/01/18	Wadudu kama Sota, bungua hushambulia mmea mchanga. Kumdhibiti tumia viadudu kama Karate, Decis, Dursban, Protrin. Soma maelekezo, muone mtaalam wa kilimo kwa ushauri	160
growing	pest and diseases-safe use of pesticides	all	all FARMERS	11/01/18	Zingatia kanuni bora wakati wa kutumia viadudu na bidhaa nyingine za kudhibiti magonjwa ya mimea vina kemikali sumu ambayo inaweza kudhuru binadamu na wanyama	159
growing	pest and diseases-safe use of pesticides	all	all FARMERS	12/01/18	Kanuni bora ni kama kuvaa buti, glovusi, maski/kofia wakati wa kutumia kemikali, Pia zingatia udongo uwe tiftufu na wenye unyevu wa kutosha unapotumia kiuagugu	160
growing	pest and diseases-FAW	all	all FARMERS	07/02/18	Kuna mdudu hatari anayeharibu mahindi aitwaye Kiwavi vamizi. Kichwani ni kama herufi Y nyeupe iliyogeuzwa chini. Ana madoa 4 meusi yaliyopangwa kimraba mkiani	158
growing	pest and diseases-FAW	all	all FARMERS	07/02/18	Viwavi vamizi wanakuwa ndani ya mahindi. Mayai yake yanakaa nyuma ya matawi ya chini, wana rangi ya kijani, hudhurungi au nyeusi. Kumtambua itasaidia kumdhibiti	160
growing	pest and diseases-FAW	all	all FARMERS	08/02/18	Ili kufanya maamuzi sahihi ya udhibiti, fanya ukaguzi wa shamba kujua hatua mmea uliyofikia. Usinyunyuzie kiuatifu baada ya mahindi kutoa mbelewele/yanachana	160
growing	pest and diseases-FAW	all	all FARMERS	08/02/18	Kiwavi vamizi anasambaa kwa haraka, wanahama kutoka mashamba yaliyokaribu. Kiwavi mkomavu hufanana na kipepeo mdogo husafiri mwendo mrefu usiku.	145
growing	pest and diseases-FAW management	all	all FARMERS	08/02/18	Nyunyuzia kiuadudu masaa ya jioni au mapema asubuhi wakati huu ndio viwavi hushambulia mimea na pia jua sio kali. Mchana na wakati jua ni kali, viwavi hujificha	160
growing	pest and diseases-FAW management	all	all FARMERS	12/02/18	Tumia viadudu kama Duduba 450 EC, mupacrone 500 EC, match save au PROTRINE 60 EC. Changanya cc 3 na lita moja (1) ya maji. Ushauri zaidi mwone mtaalamu wa kilimo	160
growing	pest and diseases-FAW management	all	all FARMERS	12/02/18	Viadudu hivi vinafanya kazi kwa njia sawa, usichanganye tumia kimojawapo kinachopatikana karibu nawe. Pulizia jioni, wakati upepo sio mwingi au dalili za mvua	157
growing	pest and diseases-safe use of pesticides	all	all FARMERS	13/02/18	Linda afya yako-fuata kanuni bora za utumiaji wa viuatilifu. Safisa pampu vizuri kabla na baada ya kutumia, kuepuka madhara yatokanayo na kuchanganya viuatilifu	160

growing	pest and diseases-FAW management	all	all FARMERS	13/02/18	Unashauriwa kupulizia viudadu kwenye mmea wote, matawi ya nje na kwenye mhindi juu (funnel) ambapo viwavi wanajificha. Kagua na kufuatilia baada ya siku 7.	156
---------	----------------------------------	-----	-------------	----------	-------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

growing	pest and diseases-termite management	all	all FARMERS	26/03/18	Kwa mashamba ya mahindi yenye tatizo la mchwa tumia kiuadudu kama Protrin 60EC, Dursban, Karate n.k kupunguza upotevu wa mavuno. Soma kifungashio jinsi ya kutumia	160
growing	pest and diseases-termite management	all	Mbeya rural na Iringa rur	27/03/18	Hakikisha shamba la mahindi ni safi muda wote. Fanya palizi ya tatu kama kuna magugu ili kurahisisha uvunaji na kuharibu maficho ya wanyama waharibifu kama panya	160
harvest	pre-harvest	all	Nyanda zote	11/05/18	Andaa vifaa vya kuvunia na kuhifadha mahindi kama mifuko au mapipa. Safisha chumba cha kuhifadha mahindi na kupuliza dawa ya kuuwa wadudu	138
harvest	pre-harvest	all	Nyanda zote	14/05/18	TAHADHARI-Viuadudu vya maji maji kama Actellic50EC au ShumbaSuper 50EC vikitumike kupulizia mahindi wakati wa kuhifadhi. Vina sumu kali na hutumika kuosha ghala	159
harvest	post-harvest	all	Nyanda zote	15/05/18	Tumia njia bora za kukaushia mahindi ili kupunguza upotevu na kutunza ubora wake. Epuka kuanika kwenye ardhi. Kwa ushauri zaidi ona mtaalamu wako.	147
harvest	post-harvest	all	Nyanda zote	16/05/18	Kukaushia nafaka ardhi husababisha kuoza na kuliwa na mchwa hivyo kupunguza mavuno na kushusha ubora. Kausha bila mahindi yako kugusana na ardhi.	147
harvest	post-harvest	all	Nyanda zote	17/05/18	Baadhi ya Viudadu jamii ya unga vinavyo tumika kuchanganya na mahindi kabla ya kuhifadhi ni Actellic Gold, Skana Super Dust, Stocal Super Dust, SubaGraindust	159

			Nyanda zote	11th May 2018	Andaa vifaa vya kuvunia na kuhifadha mahindi kama mifuko au mapipa. Safisha chumba cha kuhifadha mahindi na kupuliza dawa ya kuuwa wadudu	138
Harvest	pre-harvest	all	Nyanda zote	14th May 2018	Tumia njia bora za kukaushia mahindi ili kupunguza upotevu na kutunza ubora wake. Epuka kuanika kwenye ardhi. Kwa ushauri zaidi ona mtaalamu wako.	147
Harvest	pre-harvest	all	Nyanda zote	15th May 2018	Kukaushia nafaka ardhi husababisha kuoza na kuliwa na mchwa hivyo kupunguza mavuno na kushusha ubora. Kausha bila mahindi yako kugusana na ardhi.	147
Harvest	Pest and disease	all	Nyanda zote	16th May 2018	TAHADHARI-Viuadudu vya maji maji kama Actellic50EC au ShumbaSuper 50EC vikitumike kupulizia mahindi wakati wa kuhifadhi. Vina sumu kali na hutumika kuosha ghala	159
			Nyanda zote	17th May 2018	Baadhi ya Viudadu jamii ya unga vinavyo tumika kuchanganya na mahindi kabla ya kuhifadhi ni Actellic Gold, Skana Super Dust, Stocal Super Dust, SubaGraindust	159
